## English

**Q.1 Read the following unseen passage and choose the correct answers.**

Bears are found in Europe, Asia, Africa and America. They are massively built, with short tails and thick legs. Bears are not really carnivores. They eat almost anything, the chief exception in the polar bear, which in its natural state lives on fish and seals. However, in captivity, they seem to enjoy meat, vegetables, fruits, milk, rice and porridge.

Bears are not quite as dangerous as people imagine them to be like most animals; they will do their best to avoid human beings. They have a special sense that is eyesight to see things.

I. Where are bears found?

A. America B. Australia C. Arctica D. None of the above

II. What does a bear eat in captivity?

A. Meat B. Chapati C. Seal D. Trees

III. What does a bear avoid like most animals?

A. Hunters B. Human beings C. Fish D. None of the above

IV. What kind of body do the bears have?

A. Massively built B. Weak C. fat D. None

V. What is the strongest sense of a bear?

A. Touch B. Sight C. Smell D. Hearing
