FROM THE DESK OF THE MANAGER

True education aims at drawing out the very best, lying latent in the untapped recesses of the students' personalities by providing all opportunities for their integrated development of body, mind, and spirit.

We believe that the destiny of a nation is indeed shaped in its classrooms and the teacher is the backbone of the society, and this universal principle actualizes here. The nation is on the threshold of a major transformation. Science, technology, and communication have become indispensable and that cements our staunch belief that students must be shown the right direction so that they may be not only the harbingers but also the true beneficiaries of such times.

We, at DAVPPS, are forever willing, eager, and inspired to guide our students through every step of their journey to a bright future. The school believes in respecting the roots and at the same time keeping abreast with the latest technological advancements in school education, thus striking a unique balance between the traditional and the modern. We dream for all our students a world more prosperous and more peaceful than what it is today.

Wishing you the best for scaling bigger success and achieving newer heights in the coming days.
